Specializing in Total Family Care

Lander Medical Clinic and Western Family Care are a multispecialty group that has provided quality medical care to the residents of Wyoming for over 60 years. Within our clinic, there are providers specializing in Internal Medicine, Family Medicine, Pediatrics, Neurology, Obstetrics & Gynecology and Urgent Care. We offer comprehensive medical care for the entire family through our cooperative associations.

Visiting specialists in Cardiology, Infectious Disease, and Podiatry complement our primary care base. We have found that the ability to readily consult with our colleagues and supply in-clinic conveniences (such as our registered dietician, laboratory, x-ray, and other ancillary services) all enhance our ability to deliver medical care in an efficient, cost effective manner.

In addition to the variety of experience and specialties of our providers, Lander Medical Clinic and Western Family Care offers Urgent Care services for your acute care needs. These services are available to you when you have an injury or illness that requires immediate care but is not serious enough to warrant a visit to an emergency room.

A wonderful benefit from choosing Lander Medical Clinic and Western Family Care as your Patient Centered Medical Home is that no matter if you come in for a regular check up, Urgent Care services, or a referral to another provider within our clinic, your records (including the labs and x-ray results performed here) are readily available to the clinician you are seeing. Maintaining continuity of care for you and your family is an important aspect of our overall philosophy.

Your records and billing information are also available to you at home through our online "Patient Portal." You can easily manage you and your family's healthcare in one place by registering for the portal. Our Patient Portal provides a secure way to place clinical questions to your provider and their staff through its messaging feature, and offers an online bill pay for your convenience.

Please feel free to contact our office with any questions; we look forward to helping you and your family with all of your healthcare needs!
